Fireworks Display Details

Duration - We are Merchants of Thrill, not Merchants of Time. There is a tendency to try and spread a small budget much too far in the mistaken belief that "times equals value". It is important to realise that there is no direct relationship between cost and duration. Fireworks displays are best appreciated if the firing is brisk without blank pauses. It's not duration that counts, but how spectacular the display is. A fireworks display is composed of three parts: Opening, Body, and Grand Finale. A basic fireworks display consists of just the Body and Grand Finale, with an average length of 2 - 3 minutes. A fully fledged fireworks display will contain all three parts and will average about 3 - 6 minutes in length.

Desired Length (in minutes):	<input type="text"/>
Approx GST Exc Budget:	<input type="text"/>
Type of event:	<input type="text"/>
Date for your display?*	<input type="text"/>

Please describe the type of show you are looking for.

Please note that all bookings subject to confirmation. You will receive a reply confirmation from Fire & Rescue New Zealand within 72 hours.

Fire & Rescue Services Ltd T/A Eastcoast Fireworks Display

Booking Your Display - We advise booking early to avoid disappointment as we need to plan for each event and obtain a number of written consents and approvals to conduct an outdoor pyrotechnic display. For these reasons, it is important to arrange and book displays allowing sufficient time for these requirements to be met. The nature of this will depend upon the type of display you are staging.

Services - Our professionally fired display services usually range from \$1,500 to \$15,000 plus GST. This includes an initial site safety inspection, show-design, a number of consents and approvals, coordination with ERMA Test Certifier, Government Authorities and Fire Services, all materials, equipment, rigging, transport, public liability insurance, our professional services and pyro crew.

Budget - We are Merchants of Thrill, not Merchants of Time. In our experience, the duration of a display should be around 3 – 6 minutes. This would be sufficient to obtain maximum impact and unforgettable fireworks splendour. Moving from low level, mid level and aerial effects, this fast moving and exciting fireworks show creates an unforgettable finale.

There is a tendency to try and spread a small budget much too far in the mistaken belief that "time equals value". It is important to realise that there is no direct relationship between cost and duration. A budget of, say, \$2500 could be fired in either a few minutes (an unforgettable experience) or over 30 minutes (a rather tedious and boring affair).

The duration of a display should be determined by the occasion. In our experience, if the display is meant to climax the evening, it should last about 3 to 6 minutes. This would be sufficient to obtain maximum impact. If the display is meant to be the main event of the evening, then a minimum duration of 6 to 8 minutes should be considered. Fireworks displays are best appreciated if the firing is brisk without blank pauses. It's not duration that counts, but how spectacular the display is.

Additional Fees - Costs associated in providing consents and approvals fees, public liability insurance, insurance excess, aircraft, barges launch and mooring fees, transportation, accommodation and additional goods and services if required, will be charged out at the actual and reasonable rates.

What You Get - As a minimum you will receive a customised design and professionally fired fireworks display within the limits of the Venue and the available budget. Our aim is to provide the best quality in firework entertainment, ensuring your needs and requirements are met. Using top quality materials we combine multitudes of colours and firework effects at different depths and heights to create a variety of effects gripping you and your guests with inspired imagery.

Surprise - Please note, we offer a surprise service. If the site allows we will set up the show without anyone knowing. We have unmarked transport and unmarked safety clothing for these situations.

On the Day - On the day of your booked display, our professional Pyrotechnician and firing crew will arrive several hours prior to the show, sometime in the afternoon (or morning depending on the weather) to set up the necessary firing racks, pyrotechnics and electronic firing systems.

Fire Your Own Display - It's YOUR firework display, so why not let everyone else know it! Why not fulfil that dream of starting your fireworks display. The Event Organiser can start the display in a truly spectacular way using our antique blasting machine. When it comes to firing the display at the agreed time, our Pyrotechnician will let you and your guests know. He will then invite the Event Organiser to take centre stage and plunge the handle together using our antique blasting machine to start the display in style, then all you have to do is sit back, relax and watch the display unfold before you and your guests.

After the Display - When it is all over, we will take care of clearing any debris that may have fallen and pack up the racks on the night.

Where to from here? - As you can appreciate, we are keenly interested in being invited to provide a fireworks display for the perfect end of your fundraising event. Once you're booking form and order is received we will take care of the rest. We'll send you a written proposal and quotation. It's that easy.

If you would like to know how fireworks can become part of your next School or Community celebration, we urge you to contact Simon on ☎ 06 858 5120 or ✉ simon@fireworks.org.nz and he will be more than happy to assist you in designing that special event which is right for you and your budget.
